Contents

Preface vii
Contributors ix

Chapter 1. Introduction and previous research 1
A. J. BARBER, M. J. CROW & J. S. MILSOM
History of geological research in Sumatra
before WWII 1
Post-WWII research 3
SEATAR Programme 3
Indonesian Petroleum Association 4
British and Indonesian Geological Surveys 4
University of London Southeast Asian Research Group, BGS and LEMIGAS 5
Southern Sumatra Project 6

Chapter 2. Seismology and neotectonics 8
J. S. MILSOM
Shallow seismicity 9
The Wadati-Benioff Zone (WBZ) 10
Toba seismicity 11
Relative horizontal movements 11
GPS data, the Enggano and Simeulue earthquakes and Mentawai Fault 13
Vertical movements 15

Chapter 3. The gravity field 16
J. S. MILSOM & A. S. D. WALKER
Data sources 16
Regional gravity patterns 16
Toba–Tawar gravity low 19
Eastern Sumatra 19
Gravity effects of sedimentary basins 19
The forearc basin 20
Seismic tomography and the long-wavelength gravity field 22

Chapter 4. Pre-Tertiary stratigraphy 24
A. J. BARBER & M. J. CROW
Pre-Carboniferous basement 24
Tapanuli Group (Carboniferous–?Early Permian) 25
Peusungan Group (Permo-Triassic) 35
Woyla Group (Jurassic–Cretaceous) 40

Chapter 5. Granites 54
E. J. COBBING
Isotopic ages of Sumatran granites 54
The granite suites 56
Conclusions 61

Chapter 6. Pre-Tertiary volcanic rocks 63
M. J. CROW
Carboniferous volcanism 63
East Sumatra Plutonic–Volcanic Belt (Permian volcanism) 63
West Sumatra Permian Plutonic–Volcanic Belt (Early–Mid-Permian volcanism) 64
Geochemistry of the Silungkang and Paleput Formations 67
Metavolcanics and serpentinites in the Medial Sumatra Tectonic Zone 68
Bentong–Billiton Accretionary Complex 68
West Sumatra Triassic Plutonic–Volcanic Arc 71
Pahang Volcanic Belt 71
Jurassic–Cretaceous Plutonic–Volcanic Arcs 71
Volcanics in the Woyla Accretionary Complex 72
Oceanic volcanic arc fragments 77
Origins of the volcanic units and their environments of formation 79

Chapter 7. Tertiary stratigraphy 86
M. E. M. DE SMET & A. J. BARBER
Stratigraphic review 86
Pre-Rift stage (Eocene) 87
Horst and graben stage (latest Eocene–Oligocene) 88
Transgressive stage (Late Oligocene–Mid-Miocene) 91
Maximum transgression (Mid-Miocene) 94
Regressive stage (Mid-Miocene–Present) 95
Summary 95

Chapter 8. Tertiary volcanicity 98
M. J. CROW
Radiometric dating of volcanism and plutonism in Sumatra 98
Tertiary volcanic stratigraphy 98
Major and trace element geochemistry of the Tertiary volcanic rocks 109
Volcanism, plutonism and subduction beneath Sumatra during the Tertiary: summary of Tertiary volcanism and tectonic overview 110

Chapter 9. Quaternary volcanicity 120
M. GASPARON
Quaternary volcanic arc and its relationship with main tectonic features of Sumatra 120
Pyroclastic deposits 123
Quaternary arc volcanoes 124
Quaternary backarc volcanics 125
Volcanic hazard 130

Chapter 10. Fuel resources: oil and gas 131
J. CLURE
North Sumatra Basin 131
Central Sumatra Basin 135
South Sumatra Basin 137
Other Sumatran basins 140

Chapter 11. Fuel resources: coal 142
L. P. THOMAS
Geology and coal deposits in Sumatra 142
Coal quality 145
Coal resources and production 145
# Contents

## Chapter 12. Metallic mineral resources
M. J. Crow & T. M. van Leeuwen
