Frontispiece vii
Summary of major events in the life of J. W. Gregory viii
Preface ix

Chapter 1 Early life; family background and influences 1

Chapter 2 Becoming a geologist; burning the candle at both ends 5

Chapter 3 Assistant at the British Museum (Natural History) from 1887; early years 11
Publications 11
Echinoids 12
Eozoon 13
Corals 13
Petrology 13
Excursions abroad and first recognition 14
Social and other life 15
Continued publication 16

Chapter 4 The abortive 1892–3 Villiers ‘Great Lake Rudolf Expedition’ to East Africa 19

Chapter 5 Gregory’s 1893 Lake Baringo & Mount Kenya Expedition: ‘The Great Rift Valley’ 23

Chapter 6 Home after the African expedition 29
East African-related publications and activities 29
Publications on bryozoa, corals and Barbados and other activities 31
Geological Society Council membership and BA activities 32
West Indian corals and more on Barbados 33
General 34

Chapter 7 Marriage, Bryozoa & journalism 37
Marriage 37
Bryozoa and echinoids 39
Other activities 39
Journalism 40

Chapter 8 The 1896 Conway Spitzbergen (Svalbard) Expedition and related polar work 43
Spitzbergen 43
Polar geology 48

Chapter 9 1896–9: Frustrations, further travel and publications 49
Disappointments and continued major echinoid and coral outputs, including the early use of statistics 49
The arrangement of the continents and oceans 51
Visit to the Caribbean Islands, March–May 1899 56
Numerous 1899 publications; Palaeozoic starfishes, corals, echinoids and bryozoa and Africa Anthropology 58

Chapter 10 The move to Melbourne University 61

Chapter 11 The National Antarctic Expedition of 1901: a fiasco avoided 65
Background 65
Gregory’s involvement 65
Gregory’s resignation 68

Chapter 12 The ultimate accolade: election to FRS 73
Election to FRS 73
Assessment of research achieved before Australian input 73

Chapter 13 The Australian years: Professor of Geology and Mineralogy at Melbourne 1900–1904 77
Settling into the university 77
 Appointment as Director of the Geological Survey of Victoria 80
Life in Victoria 82
Gregory’s work in Melbourne including visits to Tasmania and New Zealand 84
Major publications 87
‘The Foundation of British East Africa’ 87
The Lake Eyre expedition of 1901–2: ‘The Dead Heart of Australia’ 88
The start of geography textbook writing 91
‘The Mount Lyell Mining Field, Tasmania’ 94
‘The Ballarat East Gold-Field’ 94
Gregory’s resignation and departure from Melbourne 94
Assessment 96

Chapter 14 Appointment as Professor of Geology at the University of Glasgow 99
Appointment 99
Background to the institution of the new Chair of Geology 100
Settling in 102
Departamental matters 102
First year and subsidiary geology course 104
Second, third and fourth year courses in geology 106
Mining degrees 107
University museum matters 108
University matters 109

Chapter 15 Early publications (1905–10) and research activity while in Glasgow 111
Summary of the activities of the first five years 111
Early BA activity while in Glasgow, including visits to Zimbabwe and the Witwatersrand Mines 113
Mining geology 114
Bryozoa 116
Geographical contributions and publications 117
Australian geography; insights into Gregory’s appreciation of Australia 117
General geography 121
Climate variations in the past 122
The level of the sea 122
Contributions to the Glasgow Geological Society 123
Other activities 124
Historical studies 124
Legal matters, including Gregory as an expert witness
Expedition to Cyrenaica (Libya)
Third visit to Australia (1909)
Book reviews
Dent’s scientific primer ‘Geology’

Chapter 16  Domestic, family and social activities and a social history intrusion
Gregory’s Glasgow home
Home life

Chapter 17  Activities between 1910 and 1917
Summary of activities
The 1910 International Geological Congress and the iron ore resources of the world
More on ‘Australia’
Visit to Dalmatia in 1911
Continued contributions to the Geological Society of Glasgow and Scottish geology
‘The Making of the Earth’
Visit to Benguela, Angola
The classification of coast types, the nature and origin of fjords and lochs
South Georgia
The educational value of the cinema
The Carlisle–Solway Basin
BA involvement and Gregory’s fourth visit to Australia
Other activities
‘The First Inhabitants of the World’ and ‘Geology of Today’
The Danbury Gravels
The Fly River Eocene corals
The Corrieyairack Road, Scotland
Preglacial valleys
Henry Darwin Rogers

Chapter 18  1916–1919: work for the Government
Wartime work in the War Office 1917
The Calcutta University Commission, 1917–19
Awards
Return to British East Africa (Kenya) in 1919 and the following related studies

Chapter 19  1919–29: return to Glasgow and subsequent activities
Energy studies
Glacial studies
Irish eskers
English eskers
Scottish glacial deposits
Geological Society of Glasgow
Visit to Burma in 1921
Expedition to Eastern Chinese Tibet, 1922
Christopher Gregory’s progress
Further awards
Return to the Essex rivers and the Lower Thames; also North Sea–Thames–Rhine history
BA, IGC and International Geographical Congress activities 1920–1929
Racial matters
Other activities
Geography textbook revision
General lectures
Yachting on the Corsair
Book reviews
Renewed taxonomic work on echinoids and corals
Denudation and tectonism
Economic mineral studies, IMM involvement & ‘The Elements of Economic Geology’
Human migration
Water divining
Journalism and BBC broadcasts
President of the Geological Society, 1928–30, excluding Presidential addresses

Chapter 20  Opposition to continental drift and the origin of the Atlantic and Pacific Oceans

Chapter 21  ‘Retirement’ with continued output
Journal articles and lecturing
Books published
‘Earthquakes and Volcanoes’
‘General Stratigraphy’
‘The Story of the Road’
‘Dalradian Geology’

Chapter 22  The final fatal expedition to Peru

Chapter 23  Some of Gregory’s students

Chapter 24  Overall assessment and summary

Appendix 1  Published works of J. W. Gregory

Appendix 2  List of books published by Professor J. W. Gregory
