Virginia Toy (Germany)
Georg Zellmer (New Zealand)

Geological Society books refereeing procedures

The scientific and production quality of the Geological Society's books matches that of its journals. Since 1997, all book proposals are reviewed by two individual experts and the Society's Books Editorial Committee. Proposals are only accepted once any identified weaknesses are addressed.

The Geological Society of London is signed up to the Committee on Publication Ethics (COPE) and follows the highest standards of publication ethics. Once a book has been accepted, the volume editors agree to follow the Society's Code of Publication Ethics and facilitate a peer review process involving two independent reviewers. This is overseen by the Society Book Editors who ensure these standards are adhered to.

Geological Society books are timely volumes in topics of current interest. Proposals are often devised by editors around a specific theme or they may arise from meetings. Irrespective of origin, editors seek additional contributions throughout the editing process to ensure that the volume is balanced and representative of the current state of the field.

Submitting a book proposal

More information about submitting a proposal and producing a book for the Society can be found at <https://www.geolsoc.org.uk/proposals>

It is recommended that reference to all or part of this book should be made in one of the following ways:

Smellie, J. L., Panter, K. S. and Geyer, A. (eds) 2021. *Volcanism in Antarctica: 200 Million Years of Subduction, Rifting and Continental Break-up*. Geological Society, London, Memoirs, **55**, <https://doi.org/10.1144/M55>

Quartini, E., Blankenship, D. D. and Young, D. A. 2021. Active subglacial volcanism in West Antarctica. *Geological Society, London, Memoirs*, **55**, 785–803, <https://doi.org/10.1144/M55-2019-3>

Geological Society Memoir No. 55

Volcanism in Antarctica:
200 Million Years of Subduction, Rifting and Continental Break-up

The Geological Society of London

The Geological Society of London is a not-for-profit organisation, and a registered charity (no. 210161). Our aims are to improve knowledge and understanding of the Earth, to promote Earth science education and awareness, and to promote professional excellence and ethical standards in the work of Earth scientists, for the public good. Founded in 1807, we are the oldest geological society in the world. Today, we are a world-leading communicator of Earth science – through scholarly publishing, library and information services, cutting-edge scientific conferences, education activities and outreach to the general public. We also provide impartial scientific information and evidence to support policy-making and public debate about the challenges facing humanity. For more about the Society, please go to <https://www.geolsoc.org.uk/>

The Geological Society Publishing House (Bath, UK) produces the Society's international journals and books, and acts as European distributor for selected publications of the American Association of Petroleum Geologists (AAPG), the Geological Society of America (GSA), the Society for Sedimentary Geology (SEPM) and the Geologists' Association (GA). GSL Fellows may purchase these societies' publications at a discount. The Society's online bookshop is at <https://www.geolsoc.org.uk/bookshop>

To find out about joining the Society and benefiting from substantial discounts on publications of GSL and other Societies go to <https://www.geolsoc.org.uk/membership> or contact the Fellowship Department at: The Geological Society, Burlington House, Piccadilly, London W1J 0BG: Tel. +44 (0)20 7434 9944; Fax +44 (0)20 7439 8975; E-mail: enquiries@geolsoc.org.uk

For information about the Society's meetings, go to <https://www.geolsoc.org.uk/events>. To find out more about the Society's Corporate Patrons Scheme visit <https://www.geolsoc.org.uk/patrons>

Proposing a book

If you are interested in proposing a book then please visit: <https://www.geolsoc.org.uk/proposals>

Acknowledgements

A volume such as this needs to be held to the highest standards. We are immeasurably grateful for the rigorous reviewing by numerous colleagues who gave unstintingly of their free time to review what were often long and very detailed chapters. We are thankful to all of them. They are as follows:

Meritxell Aulinas	Joan Martí
Marco Brenna	Adam Martin
Paola del Carlo	Nick Mortimer
Jim Cole	Patricia Mothes
Nelia Dunbar	David Murphy
David Elliot	Karoly Németh
Thomas Fleming	Robert Pankhurst
Michael Flowerdew	Dario Pedrazzi
Christophe Galerne	Chiara Petrone
John Gamble	Massimo Pompilio
Guido Giordano	Corina Riso
Roi Granot	Alessio di Roberto
Richard Hanson	Sergio Rocchi
Janet Hergt	Pierre-Simon Ross
Malcolm Hole	Christine Siddoway
Nels Iverson	Ian Skilling
Stefan Kraus	Rebecca Smith
Philip Kyle	Edmund Stump
Luis Lara	Christian Timm
Philip Leat	Dougal Townsend
Amanda Lough	Gerhard Wörner

Several additional reviewers also preferred to remain anonymous and we thank them too.

A volume of this size and complexity could not have been completed without the practical advice and behind-the-scenes support over three years by our Geological Society editorial handlers, particularly Bethan Phillips, to whom the editors offer their deepest thanks.

Last, but far from least, taking on a task with the immense scope of this Memoir and the time commitment required of us would have been impossible without the willing support of our families. To each of them, we offer our heartfelt apologies for all the times we were preoccupied and mentally elsewhere rather than being with them, together with our profound gratitude for their endless patience.

This volume is a contribution to the aims and objectives of the SCAR (Scientific Committee on Antarctic Research) Expert Group on Antarctic volcanism (AntVolc) (<https://www.scar.org/science/antvolc/home/>).

John Smellie (jls55@le.ac.uk)
